

# Mixers, Boomboxes & Turntables

## ROLLS MIXERS

**Independent Voice & Music Volume Controls**

**Three super easy-to-use solutions to balance your music and voice!**

### ROLLSMX-56c

Rolls Mixers are a great way to hook up fitness facility wireless microphone systems and music sources to an amplifier that does not have a microphone input. Mixes a monaural low or high impedance mic with stereo line level (tape deck, CD player, etc.) audio source. The mixer attaches to a regular line level input on your amplifier (such as "CD In"). Each input channel has an independent volume control to give the perfect blend of voice and music through any amplifier!

U.L.\* Listed 120 Volt AC Power Adapters included. Cables optional. Not rack-mountable.

### ROLLSMX-51
